

## BOLD ROBBERY IN MURRAY CITY

The Mercantile Company's Store  
Broken Into by Thieves.

GOODS WORTH \$700 TAKEN

MARAUDERS WALK OVER SACK  
OF CASH, BUT MISS IT.

One of the boldest and biggest robberies ever committed in the city of Murray was pulled off there some time early yesterday morning. The store of the Murray Mercantile company was broken into and merchandise to the value of between \$600 and \$700 was carried away in sacks. The burglars evidently took their time and made the pick of the most costly material in the establishment. After securing their booty the thieves attempted to dispose of some of it to a smelter employee. They calmly walked out of the little city after daylight and no trace of them has been secured since. The Murray officers and the police and sheriff's officers of this city are endeavoring to apprehend the marauders. It is believed that the burglars entered the store for the express purpose of blowing open the safe. Finding this open and no money in it, they walked over a sackful of silver and went away with two sackful of merchandise.

### Break Into Blacksmith Shop.

Before going to the store the burglars broke into the blacksmith shop of S. Henderson. There they secured a crowbar, a drill, a brace and a sledge hammer and chisel. These, it is believed, were to have been used on the safe, for they were found where the robbers had dropped them, beside the strong box. Entrance to the store was secured by removing a pane of glass from a rear window. The window was then raised. The lock was pried off the back door and the bar drawn so that an easy exit was afforded.

Evidently the burglars tackled the safe first. The door was open, as the proprietor, A. Townsend, does not make a habit of keeping money in it. A sack containing several hundred dollars in money was hidden near by, but the burglars missed it. Cutting open two sacks containing cash they emptied them and proceeded to fill them with goods of the store. The jewelry case was stripped of its watches, necklaces, brooches and rings. More than \$50 worth of silver kid gloves were taken. A large number of men's gauntlets also found their way into the sack. Cheaper gloves were cast aside and left on the floor. Razors, shaving soap and brushes, hats and furnishings filled up vacant spaces. After everything had been carefully looked over and the sacks were filled, the burglars shouldered their booty and walked out, leaving the rear door open.

### Met Smelter Employee.

After daylight John Sherman, who works at the smelter, met two men near Sixteenth South and the Rio Grande tracks. They had two sacks full of something on their backs and wanted to sell him some soap and razors cheap. The workman didn't have any money with him and wouldn't buy. The two men walked on up the track toward Salt Lake.

The burglary was not discovered until about 10 o'clock yesterday forenoon, when Mr. Townsend went to the store. As he expressed it, it looked as if a Kansas cyclone had struck it. He noticed Marshal Michael Mauss, and that official communicated with the sheriff and the police in Salt Lake. The men met by Sherman, the officers believe, were undoubtedly the robbers. They are described as being the regulation "tall and short man." One was about six feet tall, of sandy complexion and smooth-shaven. He wore a black hat and light blue suit. The other was about five feet six inches tall, of dark complexion and had a curly mustache. He had a small black hat and wore a dark gray suit of clothes. Descriptions of the men have been sent throughout the state.

## Amusements.

This morning the sale of seats and boxes commences for the engagement of E. H. Southern in "If I Were King," the latter half of the week at the Salt Lake theatre, and the sale promises to beat all records.

The gentlemen composing the Press club cast that is to present the burlesque on "Uncle Tom's Cabin" in the near future, will occupy boxes at the Grand theatre tonight as guests of Manager Warde, to witness the Warde company in the first performance by one of that play, "Uncle Tom's Cabin" will be the bill for the entire week. An elaborate production of "Hazel Kirke" is underlined for the following week.

Who plays "If I Were King" at the Salt Lake theatre the latter half of the week.

### HEIRS ARE NUMEROUS.

Estate of a Man Who Died in 1857 to Be Distributed.

San Diego, Cal., May 24.—By an order of court the valuable estate of James W. Robinson is to be distributed.

The case is a remarkable one. Robinson, who was once lieutenant governor of Texas, and subsequently a prominent lawyer in this state, died here in 1857. For some reason his heirs, who lived in Ohio and elsewhere in the east, were not aware of his death until long afterward, and no efforts were made until comparatively recently to settle up the estate. The property consists of large tracts of land around Rossville. The estate now goes to seventy-one people, most of them grandchildren of Robinson, and born since his demise.

E. H. SOUTHERN, who plays "If I Were King" at the Salt Lake theatre the latter half of the week.

### MEMORIAL SUNDAY SERMON IS PREACHED

TO VETERANS AT ST. MARK'S CHURCH

Memorial Sunday services were held yesterday morning at St. Mark's church. Despite the inclement weather, a large congregation was present, including the Maxwell and McKean posts of the Grand Army of the Republic and the Woman's Relief corps. The G. A. R. veterans attended the services in a body and were well represented. Dean J. B. Eddie delivered the memorial address and took for his subject the three lessons of Memorial day. "These three lessons," said Dean Eddie, "are gratitude to the men who risked their lives for our country during the times of strife; patriotism, and hope and courage for the future."

## REFUSE TO MARCH IN THE PARADE

Philippine Veterans Will Not Take  
Part Roosevelt Day.

FEEL THEY WERE SLIGHTED

ELABORATE PLANS FOR DECORATING JOINT BUILDING.

The Utah Philippine veterans will not march in the Roosevelt parade. This decision was arrived at yesterday afternoon at a meeting of the society at Armory hall. The reason given for their action is that they were not notified in sufficient time to get the march together, as they are scattered all over the state. They were not requested to take part in the parade until Saturday, and claim that a week is not sufficient to get the boys together.

It is understood, however, that their real reason for refusing to take part in the parade is that they were slighted by the parade committee. When the committee and aides were first appointed the Philippine veterans were neglected, and when the places were assigned in the parade the veterans were left out. Not until late last week was attention paid to this organization, and the members resent this. One of them said yesterday:

"No attention whatever was paid to us until last Friday, when Major Foster of the 7th Infantry, stationed at Fort Duane, who is a member of the committee, wrote to them about the matter. He spoke very highly of the Utah batteries and asked that they be given a prominent place in the parade. Joseph Nystrom, president of our organization, was then asked to act as an aide to the marshal. Saturday morning we were requested to take part in the parade, and called a meeting for today to decide what action should be taken. We considered the question very carefully and unanimously decided not to participate. We would not have had sufficient time to prepare for the parade. We do not think we have been treated fairly by the committee in charge, in that we were not asked to take part until Saturday, and then only when the matter had been forced upon the committee."

There are over 200 returned volunteers throughout the state, whose presence would have added materially to the parade.

### Decorations For Joint Building.

More than two miles of bunting and several hundred flags, besides a monster picture of President Roosevelt, will be used by the city and county officials in decorating the joint building. The picture of the president will be six feet long and four feet wide. It will be suspended midway between the first and second floors of the building. The picture of the president will be used by the city and county officials in decorating the joint building. The picture of the president will be used by the city and county officials in decorating the joint building.

The plan for the decoration has been left to C. V. Anderson, the chief janitor of the county side of the building. Anderson has arranged for the decoration of the building with bunting and flags, and will have a new road to the coast—a very short one, as compared with those now in use. It will be so short that the people can walk a run down to the coast whenever they feel like it to take a swim in the Pacific ocean.

"As soon as possible after the transfer of the road takes place there will be a meeting of the board of directors. They must meet and award the contracts before the actual work on the extension can be done. The work must first be approved by the directors. When they have given their sanction then we will begin throwing dirt. And yet, tell you that that road will be built just as quickly as man can build it. There will be no delays."

### Eagle on Roosevelt Engine.

The locomotive which is to haul the presidential party over the Oregon Short Line is to be surmounted by a large eagle, which will be perched on the sand dome. Engine No. 659 has been overhauled at the Pocatello shops and will come out with a new coat of paint in honor of the occasion. Engine No. 654 will act as pilot, and the two engines will accompany the party over the entire system. It has not been announced which engineers will be at the throttle.

### ZIONIST WINS HONORS.

Among the recent graduates of the University of California was Mr. Darwin W. Irvine, who graduated with honors. Mr. Irvine is a son of Mrs. Bernhisel of this city, and is a well known and popular young Zionist. Mr. Irvine not only had the distinction of being the only Utahn to graduate from that department of the college, but was one of the men to whom a diploma was personally presented by President Roosevelt.

## SPLISH! SPLASH! AND THE MAYOR FOLLOWS HIS COLTS INTO THE JORDAN

When Mayor Ezra Thompson goes forth again to work out a pair of green steppers on the verdant banks of the rolling Jordan it will be "in the good old summer time." He will admit that an early morning drive is a fine tonic for the appetite. But when it comes to a cold plunge for spring fever a little experience with the Jordan in the way of an unexpected swim and a ride home in "Jack" Lynch's cold storage van, commonly called an ice wagon, has convinced him that there is nothing to it. The city's chief executive says swimming is all right, but he prefers to take his in broken doses and under more inviting circumstances than his last swim.

It all came about in this way. The mayor secured two young colts that he thinks may develop some speed. He placed them under the care of John McCoy. A few moments ago the mayor was invited to go out and see how the colts could step. Now, there are two many critical eyes around the track, and a quiet little road running along the Jordan was selected as an ideal speedway.

The start was great. The mayor was meditating and picturing his horses throwing in throwing dust in the eyes of their competitors.

Alas! Something happened. Just what it was the mayor and McCoy didn't know until the situation had, and may to cause any undue spectacle, one of the ice man's carriages was ordered. The residents along the Jordan see the mayor's speedsters dashing over the river road no more. It is likely that they won't until the weather is warmer.

"We must judge the future by the past, and judging from our past, we ought to have hope for a brilliant future," he said.

The services were concluded with Kipling's "Recessional" by St. Mark's choir.

## Cure That Cold To-day

A simple remedy at the beginning of a disease is better than a council of doctors at the critical stage.—MUNYON.

Thousands of Philadelphians are at present victims of the Grippe. That dreaded disease is epidemic; and yet a simple remedy is at hand which is a sure preventive. At the first appearance of a cold—the forerunner of Grippe—MUNYON'S COLD CURE should be used at once. There will be no fear or danger of Grippe then. A few doses will break up most any form of cold. It has been demonstrated in thousands of cases that it immediately checks discharges of the nose and eyes, stops that awful sneezing, promptly relieves the throat and lungs, allays inflammation and fever and tones up the entire system. It is simply invaluable in all forms of Grippe, or obstinate colds.

Price 25c. at any drug store

If you have the Rheumatism try Munyon's Rheumatism Cure; if you have any Kidney trouble try his Kidney Cure. Munyon has a specific remedy for most every disease. Mailed 25c.

MUNYON, Phila., Pa.

### May Be Here Friday.

It is now the intention of Senator Clark to return to Salt Lake next Friday. He will only do so if he desires to be here and meet President Roosevelt, who will visit Zion that morning, but to arrange for the transfer of the southern end of the Oregon Short Line to the Los Angeles road. Should it so happen that the important business which takes Senator Clark to Butte in such a hurry, the transfer of the road would be longer than it is now anticipated, the formal transfer of the Short Line will be delayed just that long. But at this time there are no reasons for believing that there will be a delay.

After the transfer takes place, the master mechanics of both roads will consult regarding an equitable division of any tangible property which may be in dispute. The transfer of the road and general good will of the Short Line is simply a matter of signing names to the proper papers and the paying over of the money, but when it comes to the division of the rolling stock upon the basis of the transferred portions as compared with the entire length of the present Short Line system, an adjudication of a few engines and a number of cars of various kinds is necessary.

### Kerns on the Situation.

"An equitable division of the rolling stock will be much harder than the purchase of the roadbed," Mr. Kerns said last evening.

"The transfer of the road is but a mere formality," he added. "As they say in Washington in diplomatic circles, it is an incident, and it has been closed over the transfer of the road. That will be something to talk about; then something real will have been accomplished; then we will have something to talk about. The buying of the whole world. Then we will have a new road to the coast—a very short one, as compared with those now in use. It will be so short that the people can walk a run down to the coast whenever they feel like it to take a swim in the Pacific ocean."

### Rock Island System

Cheap Excursion Rates East.

To Chicago, Minneapolis, St. Louis, Kansas City, Omaha and all intermediate points. One fare plus \$2 for round trip.

On Sale May 5-6, June 4-5-9 and 10.

Return Limit Sept. 8.

For particulars call on E. DRAKE, Dist. Pass. Agt., GEO. A. BIRK, T. P. A., 199 West Second South, Salt Lake City. HALL S. RAY, Gen. Agent, Denver.
